

Request under Freedom of Information Act 2000

Thank you for your request for information which we received on Thursday 8th February 2024. I am pleased to confirm the following.

We are currently working in the East of England region as healthcare science workforce leads. Part of our role involves trying to get a better understanding of the healthcare science workforce to help shape system level healthcare science strategies.

We reached out a few years back to obtain ESR data extracts from each trust so we could review the workforce profile. At this time each of the trust lead scientists were also working on cleansing the data for the healthcare science group as it was recognised that some staff were coded incorrectly.

Now that most of the trusts in the region have cleansed their ESR data we are contacting to see if you are now able to provide a further extract of data for your trust. Including the following information.

Please see attached spreadsheet.

We exempt the age section under section 40 – personal Information.
