<p>The request is that we want to know what codes you are using for the conditions listed in the table. Some may have their own specific ICD code, some may be coded under a wider branch.</p> <p>We are interested to see how each trust codes the conditions, the number of admissions and then the number of patients admitted 2019-2024 (to date) for the following:</p> <ul style="list-style-type: none"> <li>- Progressive Supranuclear Palsy</li> <li>- Multiple System Atrophy</li> <li>- Corticobasal Syndrome</li> <li>- Corticobasal Degeneration</li> </ul>	<p>Provided are the number of discharges and number of unique inpatients discharged between the 1st January 2019 and 31st October 2024, that were assigned a diagnosis for the listed conditions to their inpatient spell, in any order. This has been split by year of discharge.</p> <p>The ICD-10 diagnosis codes used at MKUH for each condition are detailed in the 'Condition' column.</p> <p>Please note:</p> <ul style="list-style-type: none"> <li>- If a patient has more than one condition assigned to their inpatient spell, they will be counted once under each condition (for both discharges and unique patients).</li> <li>- Please note that MKUH does not have separate diagnosis codes for Corticobasal Syndrome and Corticobasal Degeneration so we have provided data for Cortical Degeneration.</li> </ul>	<p><b>Progressive Supranuclear Palsy:</b> ICD-10 Code: - G231 Progressive supranuclear ophthalmoplegia [Steele-Richardson-Olszewski]</p>	18	9	17	8	14	9	20	11	19	11	6	5
